Professional Summary

Dedicated Java Developer with a strong foundation in Core Java, Object-Oriented Programming (OOP), and Data Structures & Algorithms. Experienced in developing backend applications using Spring Boot and Hibernate, with hands-on knowledge of MySQL for efficient database management. Skilled in building RESTful APIs and writing clean, efficient, and maintainable code. A quick learner with strong analytical thinking, problem-solving abilities, and effective teamwork skills, committed to continuous learning and growth in Java-based application development.

Skills

Programming: Java

Web Development: HTML, CSS, JavaScript, React, Bootstrap

Java Frameworks: Collections Framework, SpringBoot MVC, Microservice, Hibernate, Java Swing GUI framework, RESTful API Development, JDBC

Data Base Technology: MySQL, MongoDB, SQL

Tools: Git, GitHub, Postman API, Docker, VS code, Eclipse, IntelliJ IDEA, Maven, Kiro

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Multithreading, Web Socket, JWT, System Design, CI/CD Pipeline, LangChain4j, Operating Systems, Computer Networks

Algorithm: Searching, Sorting, Recursion, Dynamic Programming, Greedy Algorithm, Divide & Conquer, Heap

Soft Skills: Problem-Solving, Communication, Team Collaboration, Time Management, Critical Thinking, Quick Learner

Experience

BootCamp Training (Sharda University)

May 2025 – June 2025

- Learned Data Structures and Algorithms (DSA) including tree, recursion, searching, and problem-solving techniques.
- Gained practical knowledge of Web Development using React.js with backend integration and basic project building.
- Improved soft skills including communication, teamwork, time management, and regular aptitude practice.

Project

CampusSetu [GitHub](#)

Mar 2026 – Progress

- Developed a multi-tenant platform integrating ERP, LMS, and Coding IDE in one system.
- Built and integrated a Secure Exam Browser, connected exam workflows, performed testing, and prepared documentation.
- Created a unified solution that combines ERP, LMS, and Coding IDE features on a single platform, reducing the need for multiple applications.
- Learned how to design microservice-based architecture, develop RESTful APIs using Spring Boot, integrate React with backend services, manage relational databases, deploy applications on AWS, and maintain version control using GitHub.

E-Commerce [GitHub](#)

Nov 2025 – Feb 2026

- Developed a full-stack e-commerce web application to manage products, users, orders, and secure authentication.
- Java, Spring Boot, Hibernate, MySQL, Bootstrap, JWT, GitHub.
- Implemented RESTful APIs for product and order management, integrated JWT for secure user authentication and authorization, and used Hibernate ORM for efficient database interaction and CRUD operations.

Achievements

- Scholarship: Sharda University awarded 10% scholarship based on outstanding 12th performance.
- Competitive Programming: Solved 200+ problems with a global rank of 8,57,170.
- 57 repositories on GitHub with 850+ commits, demonstrating consistent coding activity and project development.
- College Events & Volunteering: Actively participated in cultural events, and contributing as a volunteer.

Certifications

- Java Foundations – Oracle Academy [Certificate](#)
- Gen AI Essentials – TCS ION [Certificate](#)
- API Testing Path – Postman Academy [Certificate](#)

Eductaions

Bachelor of Technology in Computer Science & Engineering
Sharda University, Greater Noida, India

2023 - Present
