

SHUBHAM KUMAR

7858024086 | shubhammpathak566@gmail.com | LinkedIn | Greater Noida, India

Professional Summary

Aspiring Software Development Software Development Engineer Intern at Paytm with strong knowledge of Java, OOP, and Data Structures Algorithms. Skilled in Spring Boot, Hibernate, REST APIs, MySQL, Apache Kafka, Spring Security, and JWT. Experienced in developing secure, scalable backend applications, API integration, and event-driven systems. Strong problem-solving and debugging skills with a passion for learning and building reliable software solutions.

Skills

Programming: Java(8/21)

Web Development: Spring Boot, Spring Security, Microservice, Kafka, Logging Framework, JWT, Java Swing GUI Framework, REST API

Database Technology: MySQL, Hibernate for ORM

Tools: Git, GitHub, Postman API, DBeaver, Swagger, AWS, Maven

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Global Exception Handling, Job Scheduling Analysis, Multithreading, Debugging, Software Testing, SDLC, System Design, Gen AI, API Gateway

Soft Skills: Problem-Solving, Communication, Team Collaboration, Time Management, Critical Thinking, Quick Learner

Experience

Paytm (Internship)

Aug 2026 – Present

- Developed backend services using Spring Boot, implementing business logic and scalable REST APIs for application workflows.
- Implemented Apache Kafka-based event-driven communication between microservices, producing and consuming events for asynchronous processing and service decoupling.
- Integrated Kafka consumers and producers with Spring Boot services, handling event processing and ensuring reliable communication between distributed components.
- Worked with MySQL, Spring MVC, and Spring Security while debugging issues, testing APIs, and integrating backend features with the development team.

Project

CampusSetu

Mar 2026 – Present

GitHub

- Developed a multi-tenant platform integrating ERP, LMS, and Coding IDE in one system.
- Built and integrated a Secure Exam Browser, connected exam workflows, performed testing, and prepared documentation.
- Created a unified solution that combines ERP, LMS, and Coding IDE features on a single platform, reducing the need for multiple applications.
- Learned how to design microservice-based architecture, develop RESTful APIs using Spring Boot, integrate React with backend services, manage relational databases, deploy applications on AWS, and maintain version control using GitHub.

E-Commerce

Nov 2025 – Feb 2026

GitHub

- Developed a full-stack service provider platform where users can explore services, view details, and book services such as technology consulting.
- Built the frontend using React and developed backend services and RESTful APIs using Spring Boot for service management and booking workflows.
- Deployed and hosted the application using Vercel and AWS, integrating frontend and backend components for a scalable web application.

Certifications

- Java Foundations – Oracle Academy Certificate [\[View Certificate\]](#)
- Gen AI Essentials – TCS ION Certificate [\[View Certificate\]](#)

Education

B.Tech – Computer Science and Engineering

2023 – Present

Sharda University, Greater Noida, India
